**SINC@HE PRESENTATION ON
PARTNERSHIP BUILDING ACTIVITY
MAKING A PRIVILEGE FOR FEW AN
OPPORTUNITY FOR ALL**

Podgorica, Montenegro

7th March, 2013

“Making a privilege for few an opportunity for all”, is a Partnership building activity that aims at fostering cooperation with organizations that work with disadvantaged youth and especially with youngsters with disabilities. The PBA focuses on creating synergies to build project ideas and activities aimed at empower youth with disabilities in order to facilitate their employability opportunities. A special accent is put on the different policies that the countries governments

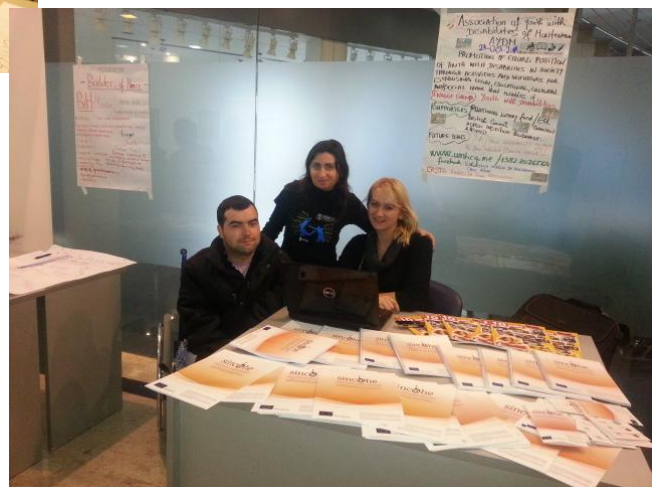

run to facilitate the access to labor market from people with disabilities and with strong social and economic disadvantages. The aim of the PBA is to create and operative network of youth organizations that will connect and work to take successful policies to facilitate the access of disadvantaged youth (especially of youth with disabilities) to the labor markets. The examples will be reproduced and spread around through actions promoted by youth organizations. We will make use of the non formal methodology to facilitate the process of

interaction among participants. The methods work in small groups, presentation of the activities, creative workshops, frontal presentation from the participants will be used to inspire and motivate 33 youth workers from Montenegro, Bosnia and Herzegovina, Kosovo, Albania, Republic of Macedonia,

Italy, Malta, Slovenia, Poland and Portugal to work together in developing and on creating synergies to build project ideas and activities aimed at empower youth with disabilities in order to facilitate their employability opportunities.

Sinc@he project was presented in front of the audience. All achieved results up to now were presented as well as planned activities. All participant have taken role in discussing ways of implementation of planned

activities and have revealed personal experience from their own countries. Representatives from foreign countries, especially from EU were surprised by the level of people with disabilities social integration planned to be achieved by project. Their suggestions about implementing some of the activities planned with project will be of great help in the continuation of the project.
